Life is not black and white

Judy Bailey and Patrick Depuhl are an artistic couple with roots in Barbados and Germany. Their family stories and songs of the programme "LIFE IS NOT BLACK & WHITE" confront visitors with the topics of colonialism, racism, the German Nazi past, dealing with trauma and active work in reconciliation processes. In narrative poetry and touching songs, they convey their encouraging message in the struggle to overcome and heal deep-seated trauma caused by structural and everyday racism which still have an impact on daily life today. Preceding the evening programme, we shall celebrate an international, multicultural and diverse worship service in English and French with Judy and Patrick. The model for this project is the „Hannover International Worship“, which has been successfully running for the last 15 years.

Judy Bailey, singer-songwriter, studied psychologist
Patrick Depuhl, storyteller, communication scientist

Sunday, February 9th
